

Guidance for Municipalities from the Cannabis Control Board

January 20, 2022

January 20, 2022. The Cannabis Control Board recently published “Guidance For Municipalities” to help cities and towns better understand the pending cannabis marketplace that’s coming to Vermont. The guide focuses on provisions of law and rules that most directly apply to municipalities.

Note that the guide is *not* intended as legal advice. If towns have questions about their legal responsibilities, they should consult with municipal counsel.
