

VLCT's Municipal Priorities for 2021-2022

December 15, 2020

Every two years, five legislative policy committees – Finance, Administration and Intergovernmental Relations (FAIR); Public Safety; Quality of Life and Environment; Transportation; and Water Resources – develop recommendations for a legislative platform in their policy area for the ensuing biennium. VLCT members adopt the legislative platform, the “VLCT Municipal Policy,” at VLCT’s annual meeting. At the November VLCT Board meeting, board members adopt policy priorities based upon the Municipal Policy. These priorities are the issues upon which Advocacy staff focus proactive action during the following two legislative sessions.
