Current as of: 11/8/2026

The Build America, Buy America Act applies a domestic content procurement preference requirement to Federally funded public infrastructure projects. Projects can be construction, alteration, maintenance, or repair of infrastructure. The requirement applies to infrastructure for transportation, water, wastewater, electrical transmission facilities and systems, utilities, broadband, buildings and real property, and energy generation, transportation, and distribution systems.

All Federal funding announcements issued for infrastructure projects on or after May 14, 2022 contain the requirement. Funding modifications to existing awards also incorporate the requirement.
