

**Where can I find a listing
of the new federal grant
programs that my town
will be eligible for?**

There are three ways to find out!

- VLCT's [**Summary of Open Funding Opportunities**](#)
- VLCT's [**Calendar of Upcoming Funding Opportunities**](#)
- VLCT's [**Vermont Federal Funding Guidebook**](#)

We have culled the hundreds of new federal funding programs, eliminating those that are inappropriate for or not applicable to Vermont's municipalities. Those that remain, we have combined into a single document, the **Guidebook**. For each one, we have reviewed the program details, read the NOFO (Notice of Funding Opportunity) and pulled out the most salient details about the funding source we know at this moment. To help you plan ahead, we've created the **Calendar of Upcoming Grant Opportunities**.

If you get stuck or feel overwhelmed, don't get discouraged - we can help! You can [**book an appointment**](#) to self-schedule a video conference with us or you can send us an email: [**FFA@vlct.org**](mailto:FFA@vlct.org).

USER TIP: To search the **Guidebook** for your topic of interest, you can use the "shortcut keys" on your computer. Open the document, hit the "Control" and "F" keys **simultaneously** and then type the keyword you want to search into the dialogue box that opens in the upper right-hand corner of your screen. If you type "water" it will show you every time "water" is used in the document.
