

Municipal Access Portal

FAQ

The Municipal Access Portal (MAP) is VLCT's member portal. Vermont municipal officials (elected and appointed) and staff use their accounts to access member-only resources and take advantage of online offerings such as the store and classifieds.

Please make sure to read through the help on this page. Many common questions are answered below.

I have tried logging in, and it just doesn't work. What should I do?

Every contact that has been provided to VLCT and who has a unique email address in our records has had a username created for their account that we proactively set up for them.

If you received our emails and the username is not working, send your full name, municipal title, and municipality to mailings@vlct.org with the subject Seeking help with my credentials, and we will resolve the issue with your account. Please do not create a new account.

How do I get a MAP account?

Everyone who has a unique email address in our records has a username for the account that we proactively set up for them.

If you have **not** received any email from VLCT, go to vlct.org/createaccount. Follow the prompts on the page to set up your account. Accounts are restricted to officials and staff of VLCT members.

Remember these requirements:

- Usernames **are** case sensitive.
- Passwords must have at least 14 characters with at least one of each: lowercase letter, capital letter, number, and special character.

General Information

Do I need a MAP account?

Yes, in order to access the bulk of VLCT's website resources, register for events, submit and track inquiries online, and make online purchases, you need an account. Anyone who works for a Vermont municipality, including elected and appointed officials and staff, should have an account.

Can accounts from the same municipality share email addresses?

No, the most important thing to know is that everyone must have a unique email address to access the portal and its features. Multiple MAP accounts cannot use the same email address because the system relies on your name and email to create your individual account.

Contact your IT support to create an email address through your municipality's official email service (preferred) or create one using any of the free email services (ex: Gmail). Please note: it is critical that you regularly check the email account you use for the member portal to stay up to date on VLCT.

What are some of the benefits of having a MAP account?

These are just a few examples of the features available to account holders and why we encourage everyone to create a MAP account.

- Access the majority of VLCT's online resources and content (login required to view)
- Get the most secure and interactive experience with the ability to submit payments online and interact directly with staff
- Submit online inquiries so you can track your inquiries and their responses over time
- Easily access and update information about your municipality (for primary and alternate contacts only)
- Subscribe to various publications
- Make online purchases
- Register for events
- Immediately access on-demand content
- Look up previous orders and event registrations

Has anything else changed in the VLCT website?

The website design, navigation, and search functionality look and feel a little different, and many website resources that have been accessible to the public now require a MAP account to view. Yet as an official or employee of a VLCT member, your MAP account lets you access all the information you need. You will also find new features to save you time, provide more

flexibility, and secure the guidance we offer as a member-only benefit.

How have payments changed?

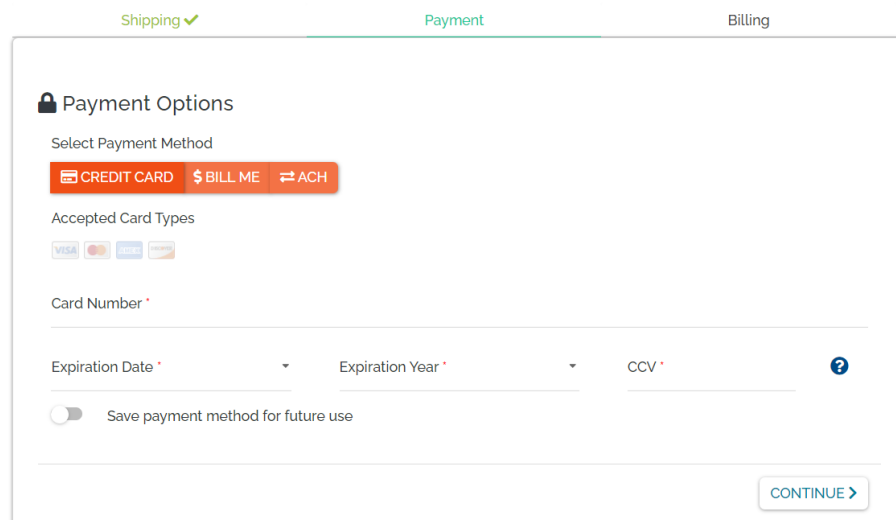

We are now able to process credit card payments! In fact, a credit card may be your best option for some purchases.

- You have to log in to make a purchase.
- Membership rates are automatically applied for most items. Pricing for VLCT Member, PACIF Member, and Non-Member may be displayed on

the product or event page, but only the price that applies to you will show in the cart when you check out.

- PACIF Members need to enter a discount code in the store to receive their reduced rate on products.
- You can still select **\$ Bill Me**, but now you also have **Credit Card** and **ACH** options.

The screenshot shows a checkout interface with three tabs: 'Shipping' (checked with a green checkmark), 'Payment' (active), and 'Billing'. The 'Payment Options' section is titled with a lock icon. It includes a 'Select Payment Method' section with three buttons: 'CREDIT CARD' (highlighted in orange), '\$ BILL ME', and 'ACH'. Below this is an 'Accepted Card Types' section showing logos for VISA, Mastercard, AMEX, and Discover. The 'Card Number' field is followed by 'Expiration Date' and 'Expiration Year' dropdown menus, and a 'CCV' field with a question mark icon. At the bottom, there is a toggle switch for 'Save payment method for future use' and a 'CONTINUE >' button.

- Store items require payment prior to delivery. For digital products, your download link won't work until payment has been received.
- You'll have to go through the checkout process even for free items and events, but you will not be charged for them.
