

Vermont Municipal Technical Assistance Program

The Municipal Technical Assistance Program is offered by the State of Vermont Agency of Administration through Vermont's eleven Regional Planning Commissions with support from the Vermont League of Cities and Towns.

Vermont's smallest municipalities have projects that need help to make progress. Sometimes the office lacks staff capacity or technical expertise to launch the project. Other times access to state and federal funding is needed to move the project across the finish line. **Does this describe your town?**

If your town is ranked in or above the 50th percentile of the [Vermont Community Index](#) or it is in the 25-50th percentile and was "significantly" impacted by the flooding, then it is [preapproved](#) to receive **FREE*** assistance through the Vermont Agency of Administration's [Municipal Technical Assistance Program](#) (MTAP) – so NO competitive application is necessary!

What Activities Can MTAP Fund?

- Community assessments
- Opportunity assessments
- Funding application and permit assistance
- Project management & implementation
- Capacity-building activities

What Types of Projects Can MTAP Assist With??

- Water infrastructure

- Sewer infrastructure
- Housing
- Community recovery, workforce development, and business support
- Climate change mitigation and resilience
- Community and economic development

Where Can You Learn More about MTAP and whether Your Town is Preapproved for it?
?

Contact your [regional planning commission](#) today!

Find more information on the [Agency of Administration's Municipal Technical Assistance webpage](#).

***FREE** assistance is funded by a grant through the Agency of Administration. Assistance will be available to [preapproved](#) municipalities on a first-come, first-served basis, for as long as the grant funding lasts.

As this program develops, more information will be posted to this page.
