

Mutual Aid through Vermont Water/Wastewater Agency Response Network (VT WARN)

July 29, 2023

The Vermont Water/Wastewater Agency Response Network (VT WARN) allows water and wastewater systems to receive rapid mutual aid from other systems. It is free and voluntary. Find more information at vtwarn.org.

If your system needs assistance such as equipment or extra personnel, use [this form](#) to submit a request. (The form was not working but it has been fixed.) Systems that provide mutual aid and systems that request mutual aid can receive reimbursement from FEMA, but ONLY if they have signed the [WARN mutual aid agreement \(PDF\)](#).

Thank you to those who have offered assistance through VT WARN! The items on this list are available from VT WARN or have been offered by members:

- Ground penetrating radar
- Portable correlators
- Valve and hydrant exerciser
- Tilt-and-pan sewer line camera
- Safety gear
- Generators
- Boats
- Portable tanks
- Pumps (various sizes, including a trailer-mounted 500 gpm wastewater pump)
- Pump station skid
- Pumper and vactor trucks (dependent on road conditions)
- KN95 & N95 masks
- Pallets of bottled water
- Industrial fans and dehumidifiers
- Assistance from operators and other personnel

To verify whether your system is a member of VT WARN, use [this list](#). If your system wants to join VT WARN, or if you need to update your system's contact information, you can do so at vtwarn.org. It is free to join, and you are never obligated to provide assistance.
