

- FEMA determines applicant eligibility at the RPA stage before evaluating a
 reimbursement claim. It is important to identify your applicant type because it
 determines what you will need to do prior to utilizing FEMA funding.
- State and Local Governments are eligible FEMA applicants. You must apply for insurance coverage (if applicable) before utilizing FEMA funding.
- Some Private Non-Profits (PNPs) are eligible FEMA applicants:
 - Critical PNP's include education, utility, emergency, or medical organizations.
 (Please also see FAQ: What types of PNPs are eligible for PA?). You must apply for insurance coverage before utilizing FEMA funding.
 - Non-critical but essential PNP's may include a number of organizations such
 as libraries, houses of worship, and community organizations. A full list is
 available in the <u>PAPPG V4</u> Page 45. You must apply for insurance coverage
 and submit an SBA loan application prior to requesting FEMA funding.
