

**I have submitted a RPA in  
the FEMA Grants Portal.  
What do I need to do next?**

- Your assigned FEMA representative will set up an introductory call in 3-4 weeks following your RPA submission.
- If you are currently engaged in response or recovery work related to the flood, please continue to do so while documenting the work that is being performed. Costs incurred can be included in a FEMA claim once you have met with your FEMA representative.
