I have submitted a RPA in the FEMA Grants Portal. What do I need to do next?

- Your assigned FEMA representative will set up an introductory call in 3-4 weeks following your RPA submission.
- If you are currently engaged in response or recovery work related to the flood, please
 continue to do so while documenting the work that is being performed. Costs incurred can be

| included in a FEMA claim once you have met with your FEMA representative. | | | | | |
