Bridges, Municipal Buildings, Stormwater Flow, Sidewalks, Sewer and Water Systems, Roads, Culverts ...

Consistently, respondents to our annual Member Survey have cited **funding, access to grants, research, and writing** as top areas for needing help. We understand that capacity is a major concern for towns of all sizes. Lack of paid staff and often only a small group of elected officials to shoulder all the work are challenging. Developing smart, sustainable projects – big or small – takes time, planning, resources, commitment, and expertise. It starts with prioritizing local needs, assessing the funding landscape, and creating an implementation plan. Whether you are taking the very first step or removing a stumbling block along the way, **VLCT's Project & Funding Specialist can provide the knowledge and experience to help ensure your important projects have the resources and funding needed to be successful.**

Training & Learning Opportunities

VLCT offers members lots of ways to build their knowledge and capacity. One of these ways is through our many live trainings. We recognize that you are busy and often are not available when our trainings are offered, The best part is that all are recorded and these recordings, along with any training materials, are posted on our website through our online Store. So learn on your own time when its best for you. Here are a few opportunities for you consider hosted by VLCT's Municipal Operations Support team:
