

# **Funding Opportunities for Enabling Housing Development**

These funding opportunities help make housing development more achievable at the local level. Municipal officials and staff can use these programs – from grants that cover planning and zoning updates to technical assistance for infrastructure improvements that unlock new housing sites – to support their efforts to enable housing development. By starting with accessible, step-by-step initiatives, communities can tap into resources that not only ease the burden of complex development tasks but also build confidence in navigating the housing process.

Municipal Action	Supporting Grant Program	How It Helps
Understand the state of housing in your community	<a href="#">Municipal Planning Grant (MPG)</a>	Funds housing needs assessments, village and growth center planning, and community engagement
	<a href="#">Community Development Block Grant (CDBG)</a>	Funds housing needs assessments, village and growth center planning, and community engagement
