4/24 Webinar - Vermont Zoning Atlas Launch

The National Zoning Atlas (NZA) is excited to launch the Vermont Zoning Atlas, one of sixteen states now fully integrated into the NZA database and public map. This webinar will share how NZA zoning data is collected and analyzed, demonstrate how to navigate the NZA interactive map, and highlight key findings from state and regional Zoning Snapshots. The webinar will conclude with a discussion on how advocates and policymakers can use the NZA to shape future land use policy in Vermont.

This virtual webinar will be held on April 24, 2026, at noon.
