

PACIF and VERB 2025

Annual Report

This page contains the *PACIF and VERB 2025 Annual Report*, which summarizes the financial and operating results for VLCT's two risk-sharing trusts, the Property and Casualty Intermunicipal Fund (PACIF) and the VLCT Employment Resource and Benefits (VERB) trust.

PACIF's and VERB's complete *2025 Audited Financial Statements* are available to their respective members upon request to sabbene@vlct.org.

Staying Strong – Together

Both PACIF and VERB exist to serve the member municipalities that entrust them with their insurance, risk management, and unemployment insurance needs. The VERB and PACIF Boards of Directors along with VLCT staff extend deep appreciation to every member of PACIF or VERB for your continued commitment and loyalty to VLCT's insurance trusts.

In 2025, both trusts posted strong gains in net position through increases in operating results as well as investments.

- VERB's operating income of \$55,268 while lower than 2024 results, was better than planned. VERB's investment gains were also stronger than anticipated.
- After posting an operating loss in 2024, PACIF ended 2025 with much better than expected gains in its operating results. Despite higher than expected current fund year losses, better than expected development of prior year fund losses resulted in a robust \$2.48 million net operating income. When combined with investment gains of \$8.9 million, PACIF's

net position increased to \$75.6 million, putting it in a strong position to pay claims for its members.

While these results are reason for optimism, they are tempered by PACIF's increased loss results, with the past two years greatly exceeding expected losses. The many causes for these higher losses include social inflation on liability claims, higher medical costs, increased sophistication of motor vehicle systems leading to more costly repairs, higher construction costs, and more. Because of this, we continue to partner with PACIF members on programs designed to reduce the potential for loss and to mitigate losses when they do occur. Dedicated loss control representatives for each member, our law enforcement consultant, two employment law and human resources consultants, contract reviews, grant and scholarship programs, and PACIF Learn are all services available to PACIF members to help reduce their potential for loss and manage their community's cost of risk.

PACIF Highlights of 2025

- Retained 100% of 2024 members and added two new members.
- More than 95% of the eligible municipal entities in the state are now PACIF members.
- Loss control staff completed 420 safety surveys of member facilities, made 1,067 recommendations for safety improvements, and trained more than 424 municipal employees. Loss control consultants spent a total of 726 hours on-site with members.

- A new senior human resources consultant with deep government employment experience was hired to help members understand and work through challenging employment issues – toward managing workplace risks and cultivating effective leadership practices.
- Directly assisted members with approximately 850 human resources and law enforcement risk questions.
- Through the EPL Referral program, referred 65 members to vetted external employment law attorneys. These members received 114.64 hours of free legal advice from the external attorneys.
- 77 members made use of PACIF Grants worth a total of \$171,933.74. Risk management items purchased with grant funding included video security systems with internet connectivity, work zone safety equipment such as sign packages and related items, curved-edge plow blades, firefighting turnout gear, and ergonomic office desks and chairs.

New in 2026 – as of May

- PACIF's Human Resources Consultation program continues to offer useful training to municipal leaders who direct or manage staff – with practical ways to develop and retain valued employees, cultivate high performing teams, and manage workplace risks.
- PACIF loss control consultants are providing more in-person consultations at member locations and working more closely with member teams to foster a culture of safety and minimize risk.
- Work continues on PACIF's new operational system, with plans for the Underwriting functions of the member portal to go live this summer. This will allow members to more easily communicate regarding their insurance, obtain insurance documents, and upload information for their renewal.
- Work on the Claims portion of the new operational system continues. Its implementation is anticipated for this fall.
