Model Contracts for Services

Copyright Vermont League of Cities and Towns
Current as of: 11/17/2026

These two model contracts* are ready for PACIF members to download and customize to meet their particular needs. The Contract for Highway Maintenance and Repair is designed for large highway maintenance contracts but can be customized for other services. The Contract for Limited Services is intended for limited highway maintenance and related scope of work contracts, but much of its language and requirements could also be used in contracts for other services or for renovations. Your Loss Control Consultant will be happy to discuss the relevant considerations and circumstances with you.

*** For 2023 Flood Response & Recovery:** Please visit VLCT's FEMA Public Assistance Program Compliant Contracts page for model contracts and contract provision attachments by contract size that are compliant with FEMA's PA program requirements.
