IT & Cybersecurity Vendors

VLCT has compiled a list of several IT service providers and security firms interested in offering cybersecurity audits to local governments, this is not an exhaustive list. You may find that list in the resources section below. Please note, VLCT has not vetted these organizations, and we do not endorse any particular business entity at this time. To assist your selection process, please review our list of questions to ask potential information technology and security vendors in the [Questions to Ask IT & Security Vendors](#) [1] resource on our webpage.

To help members select and evaluate technology providers, we have provided links to external resources on vetting security and IT service providers, questions to ask when selecting a provider, how to conduct an internal technology assessment, and audit checklists to get you started. For more information you can also check out the [Vermont Technology Alliance](#) [2] for more information on regional vendors.

If you are a vendor and would like to be included on future updates please contact VLCT.

Dominion Tech Computer Services

Michael Psaros, Business Development Manager

802-655-0880 (Ph)

802-871-5265 (fax)

mike@dominiontech.com [3]

www.dominiontech.com [4]

DominionTech has been specializing in Fixed Fee Support, Cybersecurity, Business Continuity Planning and Cloud services for over 18 years. We work well with NEMRC's team which gives us the ability to understand their software and work closely with NEMRC engineers for troubleshooting. Our clients see results due to our team of experienced engineers who specialize in a Preventative and Proactive Process, a Local Vermont Service desk and a long-term growth strategy.

National Business Technologies

78 Ethan Allen Drive

South Burlington, VT 05408

802-497-3343

Ashley LaCroix Fay, General Manager

afay@national1927.com ^[5]

National Business Technologies is a Full Service IT company. We partner with companies that are looking to make their environment not just more efficient but also secure and compliant. We start every relationship off with a free network assessment to give us an understanding of the risks and vulnerabilities that might reside within your network. This is a snapshot in time to give us a starting point of how to buildout your IT Roadmap. This provides a clear communication for us and our client to move forward into a long lasting relationship. As we work hard to protect your data we also are able to provide your environment with business hardware and IT support that it needs to survive in today's technical world. From printer, copier, and faxing to servers, access points, and switching with the support you need, National Business Technologies is here to support you!

Tech Group

21 Gregory Drive

So. Burlington, VT 05403

800-639-1532

Steve Loyer, President

sloyer@tgvvt.net ^[6]

We are the leading IT and Managed Service Provider for municipalities in Vermont. We specialize in Managed IT Network and Network Security Services. We have the expertise, experience and services to assist you now. Building long-standing business relationships is our mission. Professional hands-on friendly service is our promise, as we are "The Human Side of IT". Extensive municipality references available upon request.

Rose Computer Technology Services, Inc.

3060 Williston Rd.

So. Burlington, VT 05403

802-862-1177

David Rose, President

sales@rosects.com [7]

Rose Computer Technology Services, a Vermont company, has been in business for over 21 years, servicing customers in the United States and the Caribbean. We provide state of the art security packages, policy writing and management, and training for your users, as well as maintenance of your workstations and server infrastructure. The leadership of Rose CTS has been working with local government and public safety networks for over a decade, and would be pleased to show you how easy, affordable and non-intrusive modern IT services can be. Call Dave or Nabil at 802-862-1177, or email sales@rosects.com [7].

rbTechnologies, LLC

1970 VT Route 14 South

East Montpelier, VT 05651

802-223-4448

Rubin Bennett, Owner

info@rbtechvt.com [8]

Founded in 1997, rbTechnologies provides a full suite of IT services including Managed Services, Security assessments and audits, and general support work. We pride ourselves on clear, transparent communication and building long-term relationships with our clients. We are well versed in NEMRC and the nuances of municipal networks. Please call or email us for more information.

Vermont Panurgy

21 Gregory Dr.

South Burlington, VT 05403

800-974-1115

info@panurgyvt.com [9]

For over 30 years, Vermont Panurgy has been offering information technology and learning solutions to Vermont organizations. A multi-layer defense is critical to addressing internal and external security threats. Vermont Panurgy is available to provide a wide variety of services including network and security review, server maintenance and updates, and/or user awareness training.

VC3, Inc.

89 Main Street, Suite 4

Montpelier, VT 05602

802-828-7333

Dale Graver, Vice President of Business Development

Dale.Graver@vc3.com [10]

VC3 has prepared a Special Offer to provide VLCT members with answers to your Cyber Security concerns. Because there are so many municipalities wanting to know where they stand on the security detection, prevention and response spectrum, VC3 has designed a local government Security Readiness Gap Analysis. This analysis will look at your current systems and tools and will provide you with an understanding of how likely you are to avoid a security incident, how readily you can recover from a security incident, and what steps you can take to strengthen your security profile. Contact us at the number below to schedule your Security Readiness Gap Analysis! Currently with over 200 municipal clients, VC3 has focused on providing IT services to small and medium local governments for over 25 years.

SimpleRoute

Brett Johnson, President

1690 Williston Rd

South Burlington, VT 05403

802-881-0010 x5001

support@simpleroute.com [11]

simpleroute is a South Burlington, VT based managed IT services firm which most recently received national coverage for discovering and safely disclosing vulnerabilities in software across Vermont municipalities. Our services are tailored to provide a balance of security, service, impartiality and price at a fixed predictable cost to manage municipal IT needs. On the security side, simpleroute is capable of performing network assessments, PCI and HIPAA compliance audits, evaluating NIST and other common compliance requirements. Whether you're considering a network assessment, compliance audit, full IT management or are unsure of where to start, we'd be honored to service you.

Senator Leahy Center for Digital Investigation

Robert Bloch, Champlain College Director, Institutional Business Development

246 So. Willard Street

Burlington, VT 05401

(802) 598-8712

rbloch@champlain.edu [12]

The Senator Leahy Center for Digital Investigation at Champlain College (LCDI) is a world-class laboratory designed to international standards, focused on establishing and assisting with public and private sector initiatives surrounding cybercrime, digital forensics and information assurance. For municipalities, LCDI offers a full range of cybersecurity services including in-depth risk assessment, policies and procedures consulting, employee training and managed support services.
