Workers' Compensation Coverage

The VLCT PACIF Workers' Compensation Program provides coverage for municipal employees who are injured in the course of their employment or who become ill as a result of their employment. Coverage includes:

- Workers' compensation coverage to statutory limit
- Employer Liability

State law requires employers to report a claim within 72 hours of when they learn of a work-related injury or illness, but sooner is better – and **late reporting can develop into significant long-term costs**. Every supervisor at every PACIF municipality should read our ^[1][Report a Claim](#) ^[2]page to familiarize themselves with the requirements for filing a First Report of Injury. Afterward, when a workplace injury occurs, the appropriate person can go directly to [PACIF's online First Report of Injury form](#) ^[3].

For additional information, members will please contact our Claims Division at 800-649-7915.
