Member Inquiry Service

VLCT's Municipal Inquiry Service helps member officials with questions related to their official duties regarding general municipal law, management, and administration. The service is operated by Municipal Assistance Center (MAC) attorneys and staff members with training and expertise in public administration, human resources, financial management and aspects of local government.

Though a valuable resource available to VLCT members, MAC's Inquiry Service is not intended to interfere with, or be a substitute for, the important relationship between a municipality and its regular attorney. Please refer to the MAC Inquiry Policy for a full description of the service.

Members may submit questions to 1-800-649-7915 or may email them to info@vlct.org [1]. If emailing a question, members should be sure to include their official title and the name of the municipality they represent.
