

COVID-19 Case Growth in Central Vermont

November 20, 2020. The Agency of Human Services recently issued an update on COVID-19 case growth in Central Vermont. Among the findings:

- Approximately 900 cases have been reported in the last two weeks (as of Nov. 17).
- Orange and Washington counties accounted for nearly 40% of the COVID-19 cases in the state in the last two weeks.
- Social gatherings – inside and outside – at homes, bars and social clubs, and among sports teams are currently driving outbreaks.
