Online Training

PACIF Online University

PACIF encourages its members to use PACIF Online University to help train employees consistently and accountably. Courses explain a variety of safety and personnel-related topics. Individual employees can log in at any time, take classes at their own pace, and easily review their progress. Employers can assign courses (by department if desired), track employees' progress, and print reports as needed. Some courses can earn Continuing Education Units (CEUs) toward Vermont state Water and Wastewater Operator certifications.

Larger municipalities will want to designate a staff person as their PACIF Online University site administrator.

To learn more and get started, please visit our [PACIF Online University](#) [1] page.

VLCT PACIF Law Enforcement Policies and Procedures

Current PACIF member police chiefs can log in for the latest Vermont-compliant model policies on the topics that most often involve liability issues
