Dear VLCT Members, Staff, and Stakeholders:

Thank you for your interest in helping VLCT center justice, equity, diversity, inclusion and belonging in all aspects of local government.

In the autumn of 2020, VLCT's Board of Directors began acting to help our members tackle the complex work of justice, diversity, equity, inclusion, and belonging. Like our member municipalities, the Board needed to have many meetings, uncomfortable conversations, and thoughtful exchanges before taking these actions. By the spring of 2021, VLCT adopted a Statement of Equity and Racial Justice, adopted an Equity and Social Justice Plan, and called for volunteers to help us implement these concepts in the spring of 2021. The Equity Committee was charged to "... help create an action plan that outlines concrete ways that will actively promote equity and inclusion, both within the organization and with our members."

VLCT's mission is to serve and strengthen local governments. The Equity Committee helps us meet this mission by considering, evaluating, and recommending how VLCT should provide equity services to our members and how our organization itself can become a more anti-racist model employer and service provider. With the help of a grant from the Vermont Community Foundation, VLCT was able to hire an equity consultant to build a foundation for this work, providing organizational best-practices, subject matter expertise, and recommendations on how to move forward.

VLCT hopes the work the Equity Committee is helping us undertake will create stronger communities, better government, and a more welcoming Vermont. Thank you for joining this endeavor.

Sincerely,

VLCT's Statement of Equity & Racial Justice

The Vermont League of Cities and Towns (VLCT) recognizes the historic and continuing impact of systemic racism in Vermont. We, therefore, stand against racism and the systems that have perpetuated racial injustices. We are committed to being more visible, vocal, and supportive in our efforts to ensure equity and racial justice, and to directly address overt and systemic racism and implicit bias.

We are committed to ensuring that VLCT stands on the right side of history through bold and concrete actions moving forward. We know that cultivating a culture of belonging, diversity, equity, inclusion, and racial justice requires intentional effort and dedication. Therefore, we will work purposely to uplift a culture of justice, diversity, equity, inclusion, and belonging as we work to integrate a climate of belonging and justice for all in the state of Vermont. We will anchor our efforts responsibly and be steadfast to support the dismantling of systemic racism and promote cultural humility across the state of Vermont. To this end, we will take the first of many steps to make impactful and sustained progress in these seven areas:

1. Establish an Equity Committee composed of VLCT municipality members, staff, and partners – tasked with creating a strategic action plan that outlines efforts that will actively promote the principles of justice, diversity, equity, inclusion, and belonging for VLCT and our members.
2. Strengthen partnerships by working closely with the National League of Cities, members, and other organizations to broaden our relationships in ways that amplify our efforts and help to dismantle racism and other forms of oppression.
3. Actively recruit and hire candidates of diverse racial and other backgrounds for staff and board positions.
4. Provide regular professional development, learning, and training opportunities for VLCT board, staff, and municipal members (e.g., cultural humility, implicit bias, racism, recruitment equity, inclusive leadership, and racial justice).
5. Develop and implement a digital toolkit of justice, diversity, equity, inclusion, and belonging resources and information to support members, partners, and staff efforts.
6. Promote inclusion of diverse voices, perspectives, and imagery in our messaging and publications.
7. Develop accountability structures to support improving justice, diversity, equity, inclusion, and belonging in the state of Vermont (e.g., strategic plans, assessments and review and monitoring of progress).

Adopted by the VLCT Board on Feb. 17, 2022

Core Values and Charge to the Equity Committee

Charge

The Equity Committee's charge is to help create an action plan that outlines concrete ways that we will actively promote equity and inclusion, both within the organization and with our members.

Values

We value diversity, equity, inclusion, and dignity for all.

We strive for civic excellence and recognize that our differences make our communities stronger.

We acknowledge that institutional and systemic racism exist and that we must be intentional in dismantling them.

Defining DEI

DIVERSITY

The full range of human and/or organizational differences and similarities, including but not limited to race, ethnicity, gender, gender identity, sexual orientation, age, socioeconomic status, (dis)ability, physical and mental attributes, religion, values systems, national origin, political beliefs, parental/family status, and cultures.

EQUITY

Equity is ensuring fair treatment, access, opportunity, and advancement for all people, while at the same time striving to identify and eliminate barriers that have prevented the full participation of communities most affected by systemic oppression.

INCLUSION

Inclusive environments are places in which any individual or group is and feels welcomed, respected, supported, valued, and able to fully participate as their authentic selves. An inclusive and welcoming culture embraces differences, offers respect in words and actions for all people, fosters a diversity of thought, ideas, perspectives, and values, strives to create balance in the face of power differences.

As Adopted by the VLCT Equity Committee 10/18/21

DEI is much more than an acronym. It is a mindset. It is the sincere belief that we all deserve to be appreciated, heard, and included.

Appendix 1

VLCT Equity and Social Justice Plan

Reason for the Plan

The Board of the Vermont League of Cities and Towns believes strongly that its member municipalities must center justice, equity, diversity, and inclusion in all aspects of local government.

As part of its mission "to serve and strengthen Vermont local government," the VLCT Board wishes to develop tools to assist municipalities with this important work.

In its [Statement of Equity and Racial Justice](#), the Board outlined primary elements for this framework/strategy:

- Equity Committee – This advisory committee to the VLCT Board will help create an action plan for VLCT to actively promote equity and inclusion internally as well as with our members.
- Partnerships – VLCT will work with current partners, including state municipal leagues, the National League of Cities and Vermont organizations, to “amplify all of our efforts and help effect real change around these critical issues.”
- Representation – VLCT will encourage diverse candidates to apply for staff and board positions.
- Education – VLCT will invest in raising awareness and training staff and board members about implicit bias, racism and equity issues at the local level. Resources will be shared with members.
- Resources – VLCT will collaborate with experts and affected communities to develop a digital toolkit of resources and information for members, partners and staff.
- Communications – VLCT will promote inclusion of diverse voices, perspectives and imagery in our messaging and publications.

VLCT’s Role

VLCT is a membership-based organization that provides services and resources to Vermont’s municipalities. Member elected and appointed officials (and staff) avail themselves of these benefits as they choose. VLCT does not tell member municipalities what to do, but rather provides direction on what should be considered when making decisions, and helps identify activities or policies that might be of assistance.

Our members include cities and towns (regular) as well as other “political subdivisions of the state,” including villages, fire districts, regional planning commissions and others (associate). Recipients of our benefits must hold an official office for the municipality.

Charge

The Equity Committee's charge is to help create an action plan that outlines concrete ways that we will actively promote equity and inclusion, both within the organization and with our members.

Scope of Work

The Committee's work will assist municipalities (external) as well as VLCT's operations (internal). The action plan will establish tasks and a timeline to accomplish them.

Member Assistance

The committee will discuss and investigate tools municipalities may need and how to develop them, as well as explore other ways the League can support its members as they seek to establish a culture of equity in their own communities.

In addressing the scope of work, the Committee must be mindful of the following considerations:

- Municipal officials need practical tips and resources to engage in community conversations and requests for action.
- Municipal officials need tools to facilitate leadership on equity matters within their governing boards and their communities.
- In many cases, member municipalities may need help understanding equity and inclusion issues within their own government organizations and their communities and how to identify and prioritize action steps.
- Vermont's towns are mostly small to medium-sized, with an average population of 1,200 and with little to no staff capacity to assist equity efforts. Governing board members may take the lead or formally appoint volunteer committees or individuals to help them.
- Most municipalities don't provide services beyond statutory requirements.
- VLCT's relationship with municipal members, and the League's role to provide assistance and options.

Within the scope of work are several core issues the Board believes must be considered:

- Operational issues/best practices/ standards
- Municipal communications (municipal websites, public notices, forms, advertising, information sharing)
- Municipal recruitment, hiring, and human resources practices, including recruitment for volunteer positions on boards and commissions
- Equitable budget processes
- Effective citizen engagement
- Community development – planning, housing, businesses
- Data collection and data driven decision making

Other considerations for municipalities may include:

- Law enforcement policies in accordance with the town's voted governance structure
- Human services provision
- Overall service delivery and accessibility
- Facilities accessibility

Potential tools and resources the Committee may recommend developing can include but are not limited to:

- Equity Impact Assessment for municipalities
- Best practices by area or topic
- Templates for policies, resolutions, and other municipal documents
- Communications and facilitation tools to help with difficult conversations
- Operational guidance for various resident requests such as flying flags, painting streets, forming committees, or developing statements of support

The Committee must ensure that the tools recommended or developed address justice, equity, diversity, and inclusion in a broad sense that includes meeting the needs of Black, Indigenous, and People of Color (BIPOC), those covered under the Americans with Disabilities Act, the elderly and the young, members of the Lesbian, Gay, Bisexual, Transgender and Queer or Questioning (LGBTQ+) community, faith-based communities, and those who are low income, as well as any other segments of the community who are considered marginalized or vulnerable.

The VLCT Board recognizes the enormous breadth and depth of the work to be accomplished and acknowledges that it, in fact, will never be finished. The Board recognizes that every Vermonter must take part in the ongoing effort to ensure that justice, equity, diversity, and inclusion are a part of the everyday fabric of life not just in Vermont, but everywhere. In recognizing this, the VLCT Board acknowledges that the charge and scope of the Equity Committee may expand into new areas not previously considered as they pursue their work. The Board will work with the Committee to address additional areas of exploration and scope as they arise.
