

Explore the Lifecycle of a Federal Grant

Enroll in the 0705 Fundamentals of Grants Management course

Who Should Attend

- Current FEMA grant recipients and sub-recipients
- Individuals with less than 5 years of grant experience

This course is designed to help participants improve grants management skills by:

- Understanding the importance of grants across policy, program, and financial disciplines
- Identifying applicable regulations and navigating and applying the Code of Federal Regulations
- Sharing effective practices related to the grant lifecycle
- Highlighting the need for written policies and procedures that address areas such as monitoring, procurement, and reporting

Interested in Applying?

Visit the [Emergency Management Institute \(EMI\) online application system](#). At the Course Offer/Information screen, select:

- E0705 for sessions held at EMI Headquarters in Emmitsburg, MD
- K0705 for virtual course sessions
- L0705 for sessions scheduled at your organization

Course registration fee

Modules spanning the grant life cycle from pre-award to close-out

Hours on procurement under FEMA grants

Hour on environmental planning and historic preservation

Hands-on activities to enhance the learning experience
